

SARTHAK BHOT

Computer Science Student | Service Desk Support | Canadian Army Reserve Signals Operator
Oakville, Ontario | sarthakbhot1@gmail.com | Open to remote & on-site opportunities

PROFILE

Computer Science student and Signals Operator in the Canadian Armed Forces Reserves seeking part-time or remote service desk / IT support roles. Skilled in troubleshooting communications equipment, connectivity, and hardware, with strong customer-service, communication, and escalation judgment.

TECHNICAL SKILLS

Service Desk Support: user support, issue triage, hardware/software troubleshooting, escalation, technical documentation

End-User Technology: Windows, macOS, Linux, Apple mobile devices, Microsoft Teams, Microsoft 365 familiarity

Networking: TCP/IP fundamentals, Wi-Fi troubleshooting, local-network diagnostics, Nmap practice, MiFi devices, connectivity troubleshooting

Support Operations: structured procedures, equipment accountability, security procedures, user assistance, multitasking under pressure

Programming & Tools: Python, Java, Git, GitHub, VS Code, Terminal

Hardware: Raspberry Pi, Arduino Uno, Raspberry Pi Pico, HF systems, SATCOM, Nivis/QRT

EXPERIENCE

Canadian Armed Forces - Army Reserve | Signals Operator

2024 - Present

- Configure and troubleshoot communications, networking, and endpoint-related equipment in field and training environments.
- Set up and support HF radio, SATCOM, MiFi, Nivis/QRT, and related devices while following structured technical, security, and equipment-accountability procedures.
- Diagnose connectivity and configuration issues under time-sensitive conditions, assist users with technical setup, and escalate issues when required.

Tim Hortons | Team Member / Supervisor

Ontario

- Delivered front-line customer support in a high-volume environment, resolving questions and operational issues professionally and efficiently.
- Promoted to a supervisory role, coordinating staff, training, point-of-sale systems, workflow, and daily operational tasks while balancing multiple priorities.

EDUCATION

Sheridan College | Computer Science - Honours Degree

Currently studying (in progress)

Relevant focus: programming, computer systems, software development, networking concepts, and problem solving.

TECHNICAL PROJECTS

- Raspberry Pi Linux Server - Configured Raspberry Pi OS, enabled SSH remote access, practiced command-line administration, networking, and Nmap-based local network exploration.
- Personal Portfolio Website - Built and maintained a portfolio using terminal-based tools, Git, and GitHub; practiced version control, debugging, and deployment workflows.
- Hardware & Electronics - Worked with Raspberry Pi, Arduino Uno, Raspberry Pi Pico, cameras, and related electronics for hands-on configuration and troubleshooting projects.

ADDITIONAL STRENGTHS

Technical troubleshooting | Customer support | Team leadership | Clear communication | Fast learner | Reliable under pressure | Canadian citizen
